

## **IMPORTANT FAWCETT CENTER PARKING INFORMATION**

The Ohio State University is contracted with a private vendor (“CampusParc”) to manage all of its parking lots. CampusParc requires identification of all vehicles parked on the Ohio State campus. Vehicles parked at the Fawcett Center are required to have an OSU/CampusParc A, B or C permit or a temporary event permit in order to have complimentary parking.

If you are attending a *planned event* (conference, meeting, banquet, reception, etc.) your group contact will receive the group’s parking permit and will distribute it accordingly. This permit must be displayed in the vehicle during the event and is valid only for the specified event.

For *individual* Fawcett Center visitors not attending a contracted event, a Pay & Display machine is located on the center median with hourly parking capabilities.

***Please be advised that parking for any event is not permitted in marked reserved spaces or disability spaces without applicable permit. Parking procedures may differ for OSU Athletics and other campus special events.***

Ohio State University faculty, staff and student A, B or C permit holders do not need a separate event guest permit.
